RN Solutions establishes a new board

16 Dec. 2020 | Submitted by [RN Solutions ApS](#)

A new, strong team must stand at the head of RN Solutions and contribute to the company's continued growth.

! " \$ %

RN Solutions ApS, which places innovation, durability and a practical angle at its highest, has now put together a new highly qualified board, which will be at the forefront of RN Solutions' continued growth.

The board consists of the chairman, Jens Agergaard, who is the former owner and director of the barn equipment company Jyden and director of SKIOLD Group's pig division. Supplemented by Kai Tabor and Laurits Brandt Andersen, who have come to the positions with many years of experience in professional board work in a large number of companies.

- I am proud and honored that such competent men show me that trust and want to join the team. Together we have laid out the strategy for the coming years, and I look forward to us executing RN Solutions' future strategy together, so that we can continue to create results through collaboration and innovation, says Rune Nielsen, CEO, RN Solutions ApS .

About RN Solutions

RN Solutions ApS is an innovation-oriented manufacturer of energy-saving LED lighting for industry and agriculture. The company currently sells its durable LED lighting concepts in over 20 different countries, worldwide, via dealer network.
