

Increase productivity of your production with LED

DTL A / S in Padborg is Denmark's largest car wash for animal transport trucks. "2 years ago, we changed all our lighting to LED from RN Solutions." Director Thorsten Simonsen comments "We now have significantly more light, while saving electricity - so it's definitely a win win situation."

Get better light on the courtyard or in the open area. At the same time, you save 50-80% electricity and corresponding CO2.

RN Solutions makes light calculations and can deliver LED flood lights to any project.

Our selection:

MODULE HIGH BAY

LINEAR HIGH BAY

LED IP67 FLOOD LIGHT

- **Significant savings on the electricity bill** - 50-80% per year, depending on the current light source
- **Longterm solution:**
