

Efficient work requires good lighting

"RNS CONSTRUCTION SITE LIGHTING has given us the best light we have ever tried! Smooth and good distribution of the light without blinding. At the same time it is very flexible, durable and easy to set up.
All construction sites are different, so flexibility is important to us."
-Michael Lund, Lund & Staun.

RNS WORK LIGHT CONCEPT

Good lighting on the site is important for an optimal working environment and performance. The RNS construction site light does not blind and throws far fewer shadows than traditional floodlights.

EASY AND FLEXIBLE SYSTEM

RNS CONSTRUCTION SITE LIGHTING consists of low-weight LED luminaires, which is easily connected via the Plug´N Play™ solution. Everyone can mount as well as dismount these luminaires.

There are literally no limits for this flexible lighting system.

With RN Solutions specially developed light concepts for the construction site, you get:

- **WATERPROOF AND HIGHLY DURABLE** IP65 approved and extra moisture-proof. The frame is made of aluminum and the cover is impact resistant
- **Can be used everywhere, on all types of projects**
- **Significant savings on electricity bills**
- **Longterm solution:**
 - 2 year warranty
- **Products we recommend:**
 - RNS Plug´N Play™: **BASIC + MODULAR SYSTEMLIGHT**
 - Flood lights: **LINEAR + MODULE + IP67 FLOOD LIGHTS**
