

## Increase the productivity of your production with LED lighting

*Kurt Nielsen, Maskingården, near Nibe in North Jutland, has used LED luminaires from RN Solutions for several years.*

*"It is very quick and easy to install, without professional help. We save money and at the same time we get a good working light."*

*"Only problem is, that there are still some dark areas, where we have not yet replaced the lighting" he adds.*

**The working environment needs to be the absolute best. Lighting and easy maintenance is an important factor in this regard.**

**RNS INDUSTRIAL LIGHTS is well secured for "Electronic disturbance" and does not affect various electronic equipment. They also withstand high pressure cleaning and are therefore also suitable for the food industry. At the same time, you save 50-80% electricity and CO2.**

**RN Solutions makes light calculation and can deliver LED luminaires to any project.**

With RN Solutions specially designed light concepts for industry, you get:

- **Easy installation** - our price-efficient Plug'N Play™ solution, easy to install by the staff or the electrician
- **Luminaires for fixed installation mounted with PUSH IN clamps**
- **Significant savings on electricity bills** - 50-80% per year, depending on the current light solution
- **Long term solution:**
  - 2 – 7 years warranty, depending on the product
  - 50.000 hours lifetime
  - All equipment is waterproof and anti-corrosive, and may be exposed to salt, ammonia, detergents and certain types of acid, etc.
- **Products we recommend:**
  - Plug'N Play™: **EASY + BASIC + MODULAR SYSTEMLIGHT**
  - Fixed installation: **BASIC LED + PREMIUM LED**
  - High bay lamps: **EGGSHELL + LINEAR + MODULE**
